

# Trade Register 2025

## The global benchmark for trade and supply chain finance

Leverage the world's **most comprehensive benchmark for trade and supply chain finance**. Backed by over a **decade of aggregated data** from leading global banks and over **\$25.7 trillion in transactions**, the ICC Trade Register delivers actionable insights into **risk performance, default and loss rates, and emerging market opportunities**.

“The ICC Trade Register, built with and for the trade finance community, has become the global benchmark for our industry—providing clarity, confidence in positioning trade finance as a low-risk asset class and delivering tangible impact to the industry. Together, we will continue to lead the way, unlocking deeper insights, strengthening trust and creating even greater value for global trade.”

**Samuel Mathew**

**Chair of the ICC Trade Register and  
Managing Director, Head of Documentary Trade at Standard Chartered**

## Key opportunities for ICC Trade Register users

More than data, this global benchmark is a strategic asset. It has **influenced global regulation, helped banks unlock millions in capital savings and empowers smarter decisions, stronger risk management and better regulatory alignment**:

**30–60%**

Apply lower risk weights to trade finance assets, **unlocking 30–60% of tied-up capital**, which equates **€100 million to €1 billion** capital savings for mid-size and large global banks.

**90%**

**Reduce up to 90% in expected credit loss reserves**, improve provisioning accuracy and boost balance sheet flexibility.

**€1–2 million**

**Save €1–2 million in annual liquidity costs** and benefit from improved regulatory treatment of short-term trade products.
